Education

Indian Institute of Information Technology Bhagalpur

July 2021 - July 2025

Bachelor of Technology in Electronics and Communication Engineering

CGPA: 8.22(Absolute)

Relevant Coursework

- Computer Programming
- Data Structure
- DBMS
- OOP (C++)
- Algorithms Analysis
- Operating System

Experience

GeeksforGeeks

March 2025 - Present

DSA Mentor Intern

Noida, India

- Mentored **200+** students in DSA through structured classes and **doubt-solving sessions**, solving **150+** coding problems and teaching **CS fundamental concepts** to enhance theoretical and practical understanding.

Trustedwear Tech

May 2024 - June 2024

Software Engineer Intern | Figma, SquareLine Studio, Git

Remote

- Led UI development for smartwatch interfaces, designing **20+ customizable watch faces** and a heart rate monitor UI, enhancing aesthetics and user engagement.
- Collaborated with cross-functional teams to optimize smartwatch performance, reducing memory usage by **15%** through efficient design strategies.
- Converted **6+ high-fidelity smartwatch UI designs** into functional prototypes using **SquareLine Studio**, ensuring seamless integration into production.

Projects

Video Calling Web App | *Next.js 14, TypeScript, Tailwind CSS, Stream, Vercel* |  

March 2024 - April 2024

- Built a scalable video calling platform using GetStream, Clerk, and Next.js 14, enabling 333,000+ minutes of seamless video and audio calls.
- Engineered secure authentication with Clerk, achieving a 100% success rate in user logins and access control.
- Optimized deployment pipelines via GitHub and Vercel, reducing integration errors by 90% and streamlining CI/CD workflows.
- Developed 4 core features, including meeting scheduling, recording, and participant management, leveraging Tailwind CSS, ShadCN, Stream, and TypeScript to boost performance by 30%.

Sumz | Article Summarizer Website | *OpenAI API, React, Redux Toolkit, Tailwind CSS* |  **May 2023 - June 2023**

- Designed and implemented an AI-driven summarization tool using OpenAI's API, condensing 10,000+ word articles into concise 150-200 word summaries via RapidAPI.
- Optimized API calls with Redux Toolkit, improving response times and reducing complexity by 25-30% for enhanced user experience.
- Engineered a sleek UI/UX with React, Tailwind CSS, and Redux Toolkit, delivering a high-performance and visually appealing interface.

Technical Skills

Languages: C++, JavaScript, TypeScript.

Frontend Technologies: Figma, HTML, CSS, JavaScript, React.js, Tailwind CSS, Next.js

Backend Technologies: Node.js, Express.js, REST APIs, MongoDB, MySQL

Area of Interest: Computer Science, Software Development, Cloud Computing, AI & ML, Backend Engineering, Full-Stack Development, Testing & Optimization

Achievements

- Secured ICPC Regionalist 2025 status, demonstrating advanced problem-solving and algorithmic expertise on a global stage.
- Attained Knight Badge on [LeetCode](#) with a peak rating of 1944, ranking in the top 3.52% of coders worldwide.
- Achieved the Specialist title on [Codeforces](#) with a highest rating of 1455, highlighting strong competitive programming skills.
- Earned a 3-star rating on [CodeChef](#) with a 1677 max rating, showcasing expertise in high-level coding contests.
- Solved 1,600+ problems across LeetCode, CodeChef, Codeforces, and GFG, reinforcing a solid grasp of data structures and algorithms.
